## PREFACE

The first edition of subclass K was published in 1977 under the title *Law (General)*. The 1998 edition was the first to be published under the title *Law in General. Comparative and Uniform Law. Jurisprudence*. A 2005 edition cumulated additions and changes that were made between 1998 and 2005. This 2009 edition cumulates changes made since 2005.

Subclass K is the first in the hierarchy of classes K-KZ, Law, and provides subject arrangements for legal materials of the most general or universal application. The largest segment of the subclass is for comparisons of various legal systems, or comparisons of the domestic law of jurisdictions in different regions, as well as uniform law resulting from international law unification efforts. The area of the schedule for jurisprudence, beginning at K201, provides for all aspects of the scientific development of legal doctrine.

Subclass K makes use of a set of standardized form division tables that are used with all of the K schedules except KD, KE, and KF. These form division tables are not included as part of this publication. They are available in a separate publication entitled *K Tables: Form Division Tables for Law*. Subclass K must be used in conjunction with that publication.

Classification numbers or spans of numbers that appear in parentheses are formerly valid numbers that are now obsolete. Numbers or spans that appear in angle brackets are optional numbers that have never been used at the Library of Congress but are provided for other libraries that wish to use them. In most cases, a parenthesized or angle-bracketed number is accompanied by a “see” reference directing the user to the actual number that the Library of Congress currently uses, or a note explaining Library of Congress practice.

Access to the online version of the full Library of Congress Classification is available on the World Wide Web by subscription to *Classification Web*. Details about ordering and pricing may be obtained from the Cataloging Distribution Service at:

**<<http://www.loc.gov/cds/>>**

New or revised numbers and captions are added to the L.C. Classification schedules as a result of development proposals made by the cataloging staff of the Library of Congress and cooperating institutions. Upon approval of these proposals by the weekly editorial meeting of the Policy and Standards Division, new classification records are created or existing records are revised in the master classification database. Weekly lists of newly approved or revised classification numbers and captions are posted on the World Wide Web at:

**<<http://www.loc.gov/aba/cataloging/classification/weeklylists/>>**

Jolande Goldberg, law classification specialist, and Paul Weiss, senior cataloging policy specialist in the Policy and Standards Division, are responsible for coordinating the overall intellectual and editorial content of subclass K. Kent Griffiths, assistant editor of classification schedules, is responsible for creating new classification records, maintaining the master database, and creating index terms for the captions.

Barbara B. Tillett, Chief  
Policy and Standards Division

## Law in general. Comparative and uniform law. Jurisprudence

Class here legal works that are universal in scope, works comparing the national (domestic) law of two or more jurisdictions in different regions, works on supraregional unification of law (e.g. Universal Copyright Convention, Universal Postal Convention, etc.), and works on private international law (conflict of laws).

For works on the law of jurisdictions within the same region, see the region

For public international law, see subclass KZ

## Periodicals

Class here periodicals consisting predominantly of legal articles, regardless of subject matter and jurisdiction

For periodicals consisting primarily of informative material (newsletters, bulletins, etc.) relating to a particular subject, see the subject and the form division, Periodicals, in various subclasses

For law reports, official bulletins or circulars, and official gazettes intended chiefly for the publication of laws and regulations, see the appropriate entries in the text or form division tables of the various subclasses

For periodicals relating to the study of ancient or defunct (historic) legal systems, see the appropriate K subclasses, e. g. KJ166 Germanic law; KJA6 Roman law; KL6 Ancient law; etc.

## By main entry

The book number, derived from the main entry, is determined by the letters following the letter for which the class number stands, e.g. K1.D87, Advocatus
